

Use actuals, not averages

Fuel is one of the largest and most unpredictable expense in transportation. While some shippers rely on the Department of Energy's (DOE) diesel fuel price index as the basis for their fuel reimbursements, industry-leading shippers utilize Breakthrough's Fuel Recovery solution. This market-based solution empowers shippers to utilize real-time, lane-specific data to reduce fuel costs, consumption, and emissions within their supply chains.

	DOE INDEX PROGRAM	vs.	FUEL RECOVERY
TIME	Weekly		Daily
PRICE	Retail		Wholesale
TAX	Unaccounted for in the price		Calculated by state
GEOGRAPHY	National average		Lane level

Take control of your fuel expenses today.
